Charlton Primary School

Primary PE and Sport Premium Report 2025–2026

Introduction

Charlton Primary School received **£19,560** in Primary PE and Sport Premium funding for the academic year 2025–2026.

The school spent the full allocation during the academic year, with **£0 unspent at the end of the 2025–2026 academic year**.

The funding was used to improve the quality and breadth of PE, sport and physical activity provision, increase opportunities for pupils to participate in sport, and support the development of staff expertise.

How the PE and Sport Premium was spent

Area of expenditure	Amount
Continuing Professional Development (CPD)	£8,495
CPD to upskill staff to deliver swimming lessons	£0
Extra-curricular opportunities	£7,140
Equipment and resources	£0
Membership and subscription fees	£0
School Games Organiser (SGO) network activities	£0
External school sports competitions	£1,395
External coaching staff	£7,495
Total expenditure	**£19,560**

The school’s expenditure was focused on developing staff expertise, increasing extra-curricular opportunities, providing opportunities for pupils to participate in competitive sport and accessing specialist external coaching.

Impact of the Funding

The PE and Sport Premium has supported Charlton Primary School in providing pupils with increased opportunities to participate in physical activity and sport.

The funding has contributed to the development of pupils' physical skills as well as wider personal skills such as teamwork, resilience, confidence, cooperation and sportsmanship.

Professional Development

£8,495 was invested in Continuing Professional Development.

This enabled staff to develop their knowledge, skills and confidence in delivering high-quality PE and physical activity.

The investment in staff development supports a sustainable approach to PE provision, as increased staff expertise can continue to benefit pupils beyond the period of the individual training.

Staff development has also supported greater consistency in the delivery of PE and helped staff to provide engaging and progressive learning experiences.

Extra-Curricular Opportunities

£7,140 was spent on extra-curricular opportunities.

The funding enabled the school to provide pupils with opportunities to participate in sport and physical activity beyond curriculum PE.

These opportunities supported pupils to:

- Develop physical and sporting skills.
- Increase their participation in physical activity.
- Develop confidence and self-esteem.
- Work effectively as part of a team.
- Develop resilience and perseverance.
- Experience and enjoy a wider range of sporting activities.

The school will continue to encourage pupils to take part in regular physical activity and to provide a broad range of opportunities wherever possible.

External Sports Competitions

£1,395 was spent on entering external school sports competitions.

These opportunities enabled pupils to represent Charlton Primary School and experience competitive sport.

Participation in competitions supported pupils in developing teamwork, resilience, confidence and sportsmanship, while also allowing them to apply their sporting skills in different settings.

The school will continue to seek appropriate opportunities for pupils to participate in inter-school and external sporting competitions.

External Coaching

£7,495 was spent on external coaching staff.

Specialist coaching provided additional expertise and supported pupils in developing their sporting skills and understanding.

External coaching also broadened the range of sporting experiences available to pupils and complemented the school's existing PE provision.

Inclusion and Targeted Provision

Disadvantaged Pupils

The school targeted PE and Sport Premium funding to provide or improve opportunities for **disadvantaged pupils**.

The school is committed to ensuring that all pupils have equitable access to PE, sport and physical activity and that financial or other barriers do not prevent pupils from participating.

The funding helped to support participation and engagement and provided opportunities for disadvantaged pupils to take part in sporting and physical activities.

Pupils with SEND

No specific PE and Sport Premium spending was targeted towards pupils with SEND during 2025–2026.

The school nevertheless remains committed to providing an inclusive PE curriculum and making appropriate adaptations to enable pupils with SEND to participate in PE, sport and physical activity.

Girls' Participation

No specific PE and Sport Premium spending was targeted towards increasing girls' access to PE lessons or extra-curricular sport during 2025–2026.

The school continues to promote participation in PE and sport for all pupils and will monitor engagement to identify any barriers to participation.

Pupils with Long-Term Medical Conditions

No specific PE and Sport Premium spending was targeted towards pupils with long-term medical conditions.

The school will continue to make appropriate adaptations and provide safe opportunities for pupils with medical needs to participate in physical activity.

Swimming and Water Safety

Charlton Primary School has a Year 6 cohort.

The 2025–2026 Year 6 swimming and water-safety outcomes were:

Swimming and water-safety outcome	Percentage
Swim competently, confidently and proficiently over 25 metres	**75%**
Use a range of strokes effectively	**45%**
Perform safe self-rescue in different water-based situations	**25%**

The school did not spend PE and Sport Premium funding on internal top-up swimming lessons or broadening aquatic opportunities during 2025–2026.

Swimming CPD/upskilling staff: £0

The swimming data indicates that the majority of Year 6 pupils achieved the 25-metre swimming requirement, while there remains further scope to develop pupils' use of a range of strokes and their ability to perform safe self-rescue.

Swimming and water safety will therefore remain an important area for the school to monitor and develop.

Sustainability

Charlton Primary School aims to ensure that the impact of PE and Sport Premium funding is sustained beyond the individual funding period.

The investment in staff CPD will continue to benefit the school by increasing staff knowledge and confidence in delivering PE.

The school will also continue to:

- Provide a broad range of physical activity and sporting opportunities.
- Encourage participation in extra-curricular sport.
- Provide opportunities for pupils to participate in competitive sport.
- Work with external coaches and specialists where appropriate.
- Monitor participation and engagement in PE and sport.

- Support disadvantaged pupils to access sporting opportunities.
- Continue to develop pupils' understanding of the importance of physical activity and healthy lifestyles.
- Monitor swimming and water-safety outcomes and identify opportunities for further improvement.

Priorities for 2026–2027

Charlton Primary School has identified the following areas where targeted support would be most beneficial through the new PE and School Sport Partnerships Network:

1. **Continued professional development (CPD)**
2. **Extra-curricular opportunities**
3. **Equipment and resources**
4. **School sports competitions**
5. **External coaching and specialists**

These priorities will support the school's continued development of high-quality PE and sport provision and help to ensure that pupils have access to a wide range of opportunities to participate, develop their skills and enjoy physical activity.

Overall Impact

The PE and Sport Premium funding has enabled Charlton Primary School to invest in staff development, extra-curricular opportunities, competitive sport and specialist coaching.

The school will build on this work during 2026–2027, with a continued focus on **high-quality PE, increased participation, inclusion, competitive opportunities and developing pupils' confidence and enjoyment of physical activity and sport**.
